ADDITIONAL INFORMATION

Honours and awards

Winner of Junction Hackathon Kesko In-store conversions supercharged e-commerce challenge 2016

Junction is one of the largest hackathon in Europe. Participants of all over the world with disrupting mind sets joins together to come up with new ways how to improve our society using technology. One of the hackathon tracks was sponsored by Kesko group and consisted of improving the customer experience and at the same time increment the conversion rate of retail stores. My team come up with a tablet oriented app for the customers and sales persons to improve the customers shop experience

Honours and awards

Winner of Oulu University Software factory project 2017

Software factory is a master degree course where the students have to develop an application for the customer, at the end of the project the applications are evaluated and it is decided which one is the best project. This year the customer was Oulu University and it was required to develop a mobile game that it will help the future students of Oulu University to get to know the campus. At the end of the project my team develop an android game.
